

Awake Software and Self Hosting License

Version 0.1 | 2026-10-14

These documents are general templates, not legal advice. Before using any document for any real-world purpose, every party must have their own independent legal counsel review and approve it for their circumstances and applicable law. Do not sign, rely on, or otherwise use a document without that approval. No attorney-client relationship is created.

Specify source-review or self-hosting rights separately from hosted SaaS access.

Reference edition. Complete all fields, choose every alternative, reconcile companions and remove drafting instructions before execution. The separate fill-in edition omits this publication introduction.

Commercial Terms

Licensor/licensee: [names/addresses]. Software/version/dependencies: [schedule]. Mode: [read-only source review / self-hosting]. Permitted instances, territory and users: [limits]. Modification, redistribution and sublicensing rights: [precise scope]. Fees and term: [terms]. Updates/support: [schedule or none]. Notice contacts: [contacts].

1. License mode

Source-review mode permits only identified authorized reviewers to inspect the delivered source securely for the stated purpose; it grants no deployment or modification right. Self-hosting mode grants the express rights to deploy and, only if selected, modify in the listed environments. No sublicensing, resale or public disclosure right is implied. Retain a dependency/license inventory and identify components subject to separate licenses.

2. Ownership and modifications

Licensor retains the original software. Licensee modifications, contributions back and feedback rights are [negotiated terms]; there is no automatic assignment of all modifications. Identify contributor rights and permitted reuse. AI tools accessing source require specific authorization and adequate confidentiality protections.

3. Deployment and support

Licensee controls its hosting, access, backup and security obligations. Licensor supplies only stated builds, documentation, updates and support. Availability of Licensee infrastructure is not a hosted SaaS SLA. Record compatibility and deployment prerequisites. Personal-data responsibilities follow the actual roles, not the license label.

4. Fees and risk

Payment, warranty conformity, infringement remedies, indemnities and liability allocation are [terms]. Any audit is limited to reasonable license-compliance verification with confidentiality and customer-data protection. No open-ended access to production systems is granted.

5. End and continuity

State whether rights are subscription-limited or paid-up/perpetual, termination triggers, cure, customer sublicense continuity and any wind-down period. End-of-license deletion excludes lawful archives and rights expressly surviving. Escrow release rights, if any, require a separate signed three-party arrangement.

General terms

Formal notices go to the contacts and delivery methods in the Commercial Terms. Governing law: [state and country]; dispute forum: [court and venue, or separately completed arbitration provision], subject to mandatory law. The parties will first meet in good faith within [days] after a dispute notice; this does not delay urgent relief or a filing deadline. This document and the signed schedules listed here constitute the agreement on this subject. Changes require a writing signed by the affected parties. A schedule overrides another document only by identifying the provision and the agreed replacement. No provision silently amends an existing equity, financing, or employment instrument. Severability applies to the extent lawful. Neither party may transfer this agreement without the other's written consent except to a successor acquiring the relevant business that assumes its obligations in writing, subject to any expressly agreed restrictions. Counterparts and electronic signatures are permitted.

Signatures

Party A: [full legal name]. Authorized signature: [signature]. Name and title: [name and title]. Date: [date].

Party B: [full legal name]. Authorized signature: [signature]. Name and title: [name and title]. Date: [date].

Signed schedules and implementing documents: [list, dates, and versions, or none].
