

Awake Security Addendum

These documents are general templates, not legal advice. Before using any document for any real-world purpose, every party must have their own independent legal counsel review and approve it for their circumstances and applicable law. Do not sign, rely on, or otherwise use a document without that approval. No attorney-client relationship is created.

1. Controls

Complete controls for least-privilege access, multifactor authentication, access review, encryption in transit/at rest, secure development, dependency tracking, logging, vulnerability remediation and personnel training. Describe actual practices and exceptions; do not assert a certification not held. Company-approved AI tools and data-handling rules apply to covered information.

Security obligations do not create an unstated availability warranty; reference a separate SLA where applicable.

3. Incidents

General terms

Formal notices go to the contacts and delivery methods in the Commercial Terms. Governing law: [state and country]; dispute forum: [court and venue, or separately completed arbitration provision], subject

to mandatory law. The parties will first meet in good faith within [days] after a dispute notice; this does not delay urgent relief or a filing deadline. This document and the signed schedules listed here constitute the agreement on this subject. Changes require a writing signed by the affected parties. A schedule overrides another document only by identifying the provision and the agreed replacement. No provision silently amends an existing equity, financing, or employment instrument. Severability applies to the extent lawful. Neither party may transfer this agreement without the other's written consent except to a successor acquiring the relevant business that assumes its obligations in writing, subject to any expressly agreed restrictions. Counterparts and electronic signatures are permitted.
